

VALERII KONDAUROV

Data Analyst · BI Analyst

Open to relocation & remote

kondaurovvalerii@proton.me · t.me/valerii_kondaurov · github.com/ValeriKond · valerikond.github.io

SUMMARY

Data Analyst with 3+ years of commercial experience turning raw data into business decisions. Hands-on with the modern data stack (dbt, Airbyte, PostgreSQL) and Python-based analytics. Track record of defining sales KPIs, plan vs actual reporting, churn/retention analytics, finding revenue leaks, and building BI dashboards from scratch. Currently pursuing a Master's in AI at ITMO University. Seeking a remote or relocation role at an international company.

EXPERIENCE

Analyst — OTK Consulting

Jul 2024 – Present · Business consulting · Saint Petersburg

- ELT & DWH: Built Airbyte + dbt + PostgreSQL pipelines (raw / staging / marts); migrated Zoho to Metabase; ops and NPS dashboards that supported 40% monthly revenue growth (to \$155k+).
- Sales KPIs & Plan/Fact: Defined sales team KPIs and built plan vs actual reporting so managers could track performance against targets.
- Retention Analytics & Triggers: Calculated churn rate and retention rate; automated CRM alerts for managers when accounts looked at risk of leaving, saving \$20,000+/year (~1.5% of annual revenue).
- Document OCR: Built document processing from scratch with YOLOv11 (25 classes) and PaddleOCR; cut detection errors from 15% to <1%, L1 manual work by 5x (98% avg field accuracy).
- CRM Automations: ElevenLabs STT + AmoCRM; Google Sheets automations that cut CRM overhead for 5 managers by 3x (from 1.5h to 30m/day).
- Ad-hoc Analytics: Debugged a 20x regional lead drop (Zoho import bug); pricing elasticity analysis for tariff changes.

Key results:

- Annual revenue scale \$1.1M to \$1.4M+ with data-driven insights and automations.
- Recovered ~\$5k unbilled services by finding CRM-billing sync gaps.

Intern Analyst, Operations — Tele2

Sep 2023 – Jul 2024 · 11 mo · Telecommunications · Saint Petersburg

- Built interactive marketing and budget KPI dashboards in FineBI; processed 10k–16k row datasets with Power Query / Pivot.
- Automated reporting with VBA macros (1,000+ lines); documented DWH integration procedures.
- Geospatial coverage analysis for Karelia and St. Petersburg; 16k-row distance project delivered in 1.5 hours (25x ahead of deadline).
- Automated multi-region KPI reports (Marketing, Operational, Market Share) in FineBI.

Analyst — Global Logistic Service LLC

Mar 2023 – Aug 2023 · 6 mo · Logistics

- Automated reporting and validation in Google Sheets with AppScript.
- Multi-source formulas (QUERY, IMPORTRANGE, VLOOKUP) for cargo financial verification.
- Monthly and quarterly reporting fully automated; improved team throughput.

EDUCATION

M.Sc. Artificial Intelligence — ITMO University, Saint Petersburg · 2025–2027 (in progress, remote)

B.Sc. World Economy / International Trade — RANEPA (SZIU), Saint Petersburg · Graduated 2025
